### 120 Steps Word Problems

**DIRECTIONS:** Using what you know from completing the 120 Steps Activity, solve the word problems below. Make sure to show your work!

1. Mrs. Penguin needs to walk a total of 120 steps to get from the train to her house. If she has already walked 100 steps, how many more does she need to walk to get home? How do you know?

2. Mr. Elephant walked 50 steps and his daughter was able to walk 30 steps before needing to be carried. How many total steps did they walk? How many more steps do they need to walk to reach 120 steps? How do you know?

3. Mrs. Squirrel walked 45 steps and then took a water break. Then she walked 65 more steps and took a lunch break. How many steps has Mrs. Squirrel walked so far? How many more does she need to walk to reach 120 steps?

4. Now, make up your own steps problem and solve it.
